

**SAVE THE DATE**

**ROB HOLLADAY  
PRESENTS:  
"CLEAR THE FOG"**

**SEPTEMBER 26, 2019**

**6:15 PM**

**BAYONET POINT GYM**

**ADMISSION IS FREE**

The "Clear the Fog" assembly is motivational, interactive, and will clear the fog on misconceptions students have about vaping and smoking and the risks. Well-known risks are discussed and then we discuss facts and dangers that are not as well known about vaping.

**Topics covered include:**

- Well known consequences and risks of smoking
- Why disregard the warnings.
- Risks of smokeless tobacco and addiction
- Vaping risks, dangers, and the unknown
- What big tobacco and electronic cig companies don't want you to know.
- Marketing messages of tobacco and vaping companies vs. the Truth
- Looking to your future
- Misconceptions and your future.

This is NOT a LECTURE. This is a fun, interactive, entertaining, and educational assembly. Robb knows that if students fall asleep they do not hear the important message. With audience participation, magical illusions, and comedy he keeps their attention!
